

Chapter One: Gender Matters

Discussion Questions

Think about the following questions. Discuss them with your friends, family, and/or small group:

1. Does gender matter, or are we free to define it as we wish?
2. What does Scripture's account of creation indicate about God's design for male and female? (See Gen. 1:26-2:25.)
3. What did God hope to accomplish with His design for gender?
4. How is it possible that the two sexes are different yet equal?
5. What are some ways in which a male-female relationship might put God on display?
6. How important is it that women understand God's design for womanhood? Why?
7. Do you feel that God's design for manhood and womanhood is "very good"? Explain.
8. Have you wholeheartedly said yes to God's design? Is there any part of your heart that feels reluctant or is holding back?
